Time: noon-1pm ET

HIV Malignancies

May 10, 2017

Program Overview

The purpose of this webinar is to enable participants to Review diagnosis and treatment of both non AIDS defining HIV malignancies and viral-induced cancers.

Upon completion, participants will be able to:

- Describe NON AIDS defining malignancies in the Highly Active Anti-retroviral Therapy (HAART) era
- Delineate Immunosuppression versus viral-induced cancers

Intended Audience

Physicians, Physician Assistants, Nurses, Nurse Practitioners, Social Workers, Case Managers, and other members of the HIV treatment team
