

Adherence Across The Lifespan"

Join the Johns Hopkins University AIDS Education Training Center (AETC) will host the 3rd annual **Adherence Across the Life Span HIV Symposium**. This full day workshop will address the unique issues of getting to viral suppression through Antiretroviral Therapy (ART) adherence in adolescents as well those aging up with HIV/AIDS. Experts in the field will provide current information pertaining to the timeline from treatment to viral suppression of HIV including barriers, patient advocacy and best practices, through informative interactive presentations.

TARGETED AUDIENCE: Nurses, public health practitioners, social workers, outreach workers, counselors, and case managers. CEU's for Social Workers, Counselors and Therapist are available.
