

15th Annual HIV in WV Conference

Friday May 10, 2019

Stonewall Resort, Roanoke, WV

Target Audience: The intended audience for this conference are physicians, physician assistants, nurse practitioners, advance practice nurses, social work and ancillary team members. *For those not listed, please check with your licensing agency for credit approval.

Conference description: Welcome to the Fifteenth Annual HIV in West Virginia Conference. The past, present and future of HIV will be presented and your host is the MidAtlantic AIDS Education and Training Centers: WV Regional Partner. This conference intends to inform participants on issues relative to the past, present and future of HIV/AIDS. The conference offers a dynamic course agenda with expert faculty speaking on clinically and socially relevant issues to include but not limited to Treatment as Prevention, HIV Criminalization and Anxiety in the Context of HIV. Material will be delivered through a combination of didactic lectures, panel presentations and discussion, and opportunities for interactive questions and answers.

Once again, this conference offers WV healthcare professionals the opportunity to link with currently funded Ryan White HIV care providers as well as other HIV specific agencies across the state. The yearly goals of this conference are to enhance health care providers' knowledge base regarding the provision of health care for those living with HIV and to augment improved patient outcomes for the HIV positive individual.

Objectives: At the end of this program, participants should be able to:

1. Describe the History, Current and Ongoing Challenges across the Spectrum of the HIV Epidemic.
2. Discuss the state and local response to the HIV cluster.
3. Identify the diverse HIV prevention campaigns designed to decrease the number of new HIV cases in the United States.
4. Summarize the HIV Care Cascade, the Evolution of HIV Therapy and Future Directions for Treatments.
5. Discuss the role of the AETC in HIV prevention and treatment beginning in 1988 and the significance of the AETC as we continue to be the cornerstone of the HIV/AIDS program.
6. Describe anxiety symptoms and disorders in people living with HIV /AIDS and the effective psychotherapy treatment implications for clinically significant anxiety.
7. Discuss the impact of on-going HIV criminalization on stigma, engagement and retention in care for persons living with HIV.
