

The Ryan White HIV/AIDS Program Affordable Care Enrollment (ACE) TA Center

www.targethiv.org/ace

The **ACE TA Center** helps Ryan White HIV/AIDS Program (RWHAP) grantees and providers enroll diverse clients, especially people of color, in new health insurance options and builds providers' cultural competence.

Under the **Affordable Care Act**, many RWHAP clients are eligible for new health insurance options, including Medicaid and Marketplace plans. To extend RWHAP resources and provide these clients with comprehensive health coverage, grantees and providers should vigorously pursue enrolling clients in health insurance options.

The **ACE TA Center** provides practical tools and resources to support outreach, enrollment, post-enrollment and renewal/re-enrollment activities. Our technical assistance and training approach is responsive to grantee and provider needs and informed by best practices for culturally competent outreach and enrollment.

Tools & Resources

www.targethiv.org/ace

Download these outreach and enrollment tools and resources from the TARGET Center:

- **[Online Resource Guide for Enrolling RWHAP Clients in Coverage](#)**: Find resources, tips, and tools to help enrollment assisters with each step of the process.
- **[Eligibility Decision Tree](#)**: Decide if a client should enroll in the Marketplace, with Medicaid, or neither. See how ADAP fits with other coverage.
- **[Common Questions and Suggested Responses for Engaging Clients in Health Coverage](#)**: Discussion guide for talking with RWHAP clients of color about enrollment in health insurance.
- **[Plain Language Quick Reference Guide for Health Care Enrollment](#)**: A glossary of health insurance terms in plain language for RWHAP clients.
- **[Health Care Plan Selection Worksheet](#)**: List your client's health and medication needs, health care providers, and insurance options to help choose a plan.
- **[Topics to Consider When Assisting People with HIV to Enroll in Health Care Coverage](#)**: A fact sheet for enrollment assisters who are new to working with people living with HIV.
